

The Medina County Earth Day Festival committee welcomes you to **Every Day is Earth Day** in April. This activity calendar has been created to provide a safe alternative to our typical in-person event held every year at Buffalo Creek Retreat in Seville. This would have been our 25<sup>th</sup> anniversary, so we couldn't let it go by without a celebration and what better way than to celebrate for a whole month!

A digital copy of this calendar can be found on partnering agency websites (agency logos found at the top of the calendar page). The calendar contains embedded links that can be accessed directly if viewing from your computer or smart device. If viewing the calendar in print form, the

following information is provided to assist you in participating with those activities that require pre-registration, or in-person pick-up.

Many of the links are to resources created by partnering agencies of the Medina County Earth Day Festival. By visiting each agency's website directly, you will find these resources, and more, to help you discover practical ways to protect and activities to engage you in exploring our precious Earth. Agency logos can be found on the front of the calendar.

If you are on **FACEBOOK**, find and like @medinacountyearthdayfestival! Throughout the month of April, we will be highlighting all the information on this calendar through daily posts.
